

CITY OF KILLEEN

BUILDING INSPECTIONS DEPARTMENT

## Significant Code Changes Workshop Calendar

The Killeen Construction Board of Appeals will be hosting public workshop meetings to review significant changes between the current adopted 2009 International Construction Codes and the proposed 2015 International Construction Codes as well as the significant changes between the 2008 National Electric Code and the 2014 National Electric Code.

The Wednesday meetings below will be from 1:30 PM to 5:00 PM. The meetings will be in the Utilities Collections Main Conference Room at 210 W. Avenue C (enter from west side metal door facing College St).

<b>Date:</b>	<b>Codes for Review</b>
April 01, 2015	International Property Maintenance Code National Electrical Code (commercial and residential)
April 08, 2015	International Plumbing Code International Fuel Gas Code
April 15, 2015	International Mechanical Code International Energy Conservation Code [commercial provisions]
April 22, 2015	International Existing Building Code International Building Code
April 29, 2015	International Residential Code (Ch 1-11) [Building Planning, Foundations, Walls, etc]
May 06, 2015	International Residential Code (Ch 12-44) [Energy, Mechanical, Plumbing, etc]
May 13, 2015	Spare date if needed

City staff will provide a presentation of the significant code changes that may impact construction in Killeen. Like all major code revisions there are many changes and some will be more significant than others. Our attempt is to identify the major changes that warrant joint review and discussion. As we all know, the construction codes are considered life safety codes designed to “*establish the minimum requirements to safeguard the public health, safety and general welfare and provide safety to life and property from fire and other hazards.*”

Codes, commentaries and other related products can be purchased through ICC by either calling 800-786-4452 or by web at [order@iccsafe.org](mailto:order@iccsafe.org).
