

STORM WATER MANAGEMENT PROGRAM

	MCM 1	
	PUBLIC SERVICE ANNOUNCEMENTS	PE-1
	<p>BMP DESCRIPTION</p> <p>These are announcements broadcast on local media that will address storm water related topics such as recycling, proper pesticide and fertilizer use, and proper household chemicals disposal. The City of Killeen will pursue utilizing the City's cable access channel. Additional public service announcements will be broadcast in the newspaper to highlight special events such as the special collection events and the Killeen Recycling Center.</p>	
<p>Responsible Authority * Public Works Public Information</p>	<p>RATIONALE FOR SELECTION</p> <p>Public Service announcements are run on the City's public access channel (Channel 10 – Time Warner cable channel). This BMP is important since it has great potential to reach all groups that the TPDES general permit requires to be informed, including visitors to the City of Killeen. This BMP was also highly recommended by the Storm Water Stakeholders Group, and was the highest priority BMP for public education. The City has run the NCTCOG video on storm water management and EPA's "After the Storm" video on the public access channel.</p>	
<p>Applicability</p> <ul style="list-style-type: none"> x Residents x Visitors x Public Service Employees x Businesses x Commercial/Industrial x Construction

STORM WATER MANAGEMENT PROGRAM

	MCM 1	
	LONG TERM OPERATIONS AND MAINTENANCE OF BMP'S	PE-10
	<p>BMP DESCRIPTION</p> <p>This management practice will involve inspection and maintenance to be conducted by the Environmental Services Division's Drainage Maintenance Crew for publically dedicated drainage infrastructure. The inspections are necessary to determine the effectiveness of a BMP, which can significantly be reduced by the lack of maintenance. If a maintenance issue is identified, the Drainage Maintenance Crew will perform maintenance activities on an as-needed basis. Scheduled inspection and maintenance activities for BMPs will be performed as part of city-wide drainage maintenance program.</p>	
<p>Responsible Authority * Public Works</p>		
<p>Applicability</p> <p>Residents</p> <p>Visitors</p> <p>x Public Service Employees</p> <p>Businesses</p> <p>Commercial/Industrial</p> <p>Construction</p>	<p>RATIONALE FOR SELECTION</p> <p>The TPDES Stormwater General Permit requires the City to provide for the long-term operation and maintenance of the post-construction BMP's that are constructed in new development and redevelopment projects and that disturb greater than or equal to one acre. Proper maintenance of the post-construction BMP's requires knowing the location of each BMP to be maintained and a regular inspection process.</p>

STORM WATER MANAGEMENT PROGRAM

	MCM 1	
	STORM WATER BROCHURES	PE-3
	<p>BMP DESCRIPTION</p> <p>These are multi-page printed materials used to convey detailed information on specific topics related to storm water management. The City will coordinate with local businesses to provide additional means of distributing the brochures at designated locations within these businesses. Targeted distribution of brochures will also be used to address specific issues. An example of this would be distributing brochures on the proper disposal of grease in a neighborhood that has been experiencing line blockages due to grease.</p>	
<p>Responsible Authority * Public Works</p>	<p>RATIONALE FOR SELECTION</p> <p>The City of Killeen has already developed several brochures on storm water related topics such as pesticide and fertilizer use, household hazardous waste, and its recycling program. The Storm Water Stakeholders Group suggested coordination with local businesses to provide additional distribution of the brochures, as well as the brochure racks located at the City's Permit Counter, Bell County Public Health Department, Chamber of Commerce and City Departments.</p>	
<p>Applicability</p> <ul style="list-style-type: none"> x Residents x Visitors x Public Service Employees x Businesses x Commercial/Industrial x Construction

	STORMWATER WEB SITE	PE-5
<p>Responsible Authority * Public Works Public Information</p>	<p>BMP DESCRIPTION</p> <p>The City has a page on its existing web site that specifically addresses storm water related issues. This page provides a great deal of information including links to various state and federal related sites. An interactive form through the City's Citizen Relationship Management (CRM) module will also be used as an additional "hotline" opportunity for citizens to report storm water problems or concerns. The City also uses the web site to distribute stormwater brochures.</p> 	
	<p>Applicability</p> <ul style="list-style-type: none"> x Residents x Visitors x Public Service Employees x Businesses x Commercial/Industrial x Construction 	<p>RATIONALE FOR SELECTION</p> <p>This is an excellent tool for relaying an unlimited amount of information. The web page will be supplemented with additional information such as frequently asked questions, information on the City's Used Oil Collection and Recycling Program, proper septic system maintenance, current public involvement activity schedules, and a kids' page.</p> <p>Several brochures in pdf format are distributed online. Links are provided to outside organizations and groups for additional information. These links include but are not limited to the North Central Texas Council of Governments Integrated Storm Water Management (iSWM™) Design Manual, National Storm Water Best Management (BMP) Database, and the National Association of Home Builders.</p> <p>The Storm Water Training Page also promotes upcoming regional training activities hosted by the City, EPA, TCEQ, and CTCOG and local watershed initiatives.</p>

STORM WATER MANAGEMENT PROGRAM

	MCM 1	
	STORMWATER HOTLINE	PE-6
	<p>BMP DESCRIPTION</p> <p>The City of Killeen has established a Drainage Utility Response Line as a storm water hotline for reporting potential violations. This number is a local number and is available 24 hours a day. The Drainage Utility Response Line is promoted through several of the previously mentioned public education BMPs. Drainage Utility personnel respond and investigate these calls and refer the issue to other city departments or agencies, if necessary. An interactive form through the City's Citizen Relationship Management (CRM) module will also be used as an additional "hotline" opportunity for citizens to report storm water problems or concerns.</p> <div style="border: 1px dashed black; padding: 5px; width: fit-content; margin: 10px auto;"> <p style="text-align: center;">REPORT ENVIRONMENTAL CONCERNS TO ENVIRONMENTAL SERVICES 24-HOUR HOTLINE (254) 501-7629</p> <ul style="list-style-type: none"> • Trash and debris: fallen trees, limbs, tires, etc. • Illicit discharge: non-storm water substance or material in the watercourse such as oil, soap </div>	
<p>Responsible Authority * Public Works</p>	<p>RATIONALE FOR SELECTION</p> <p>Storm Water Hotlines provide citizens with an avenue to voice concerns and report potential violations to the appropriate authorities. Killeen can easily use an existing phone line to establish this service; however, an investigation and response must be made for each call. The responses to each call will be handled by the Environmental Services division which will have appropriate training for environmental concerns and violations.</p>	
<p>Applicability</p> <ul style="list-style-type: none"> x Residents x Visitors x Public Service Employees x Businesses x Commercial/Industrial x Construction

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	MCM1	
	STREAM CLEANUP PROJECTS	PE-7
Responsible Authority * Public Works Volunteer Services	BMP DESCRIPTION The City of Killeen will coordinate stream cleanup projects with various local volunteer groups and organizations through Keep Killeen Beautiful (KKB). Specific sites will be selected based on impact by trash, especially those areas with heavy pedestrian and vehicular traffic for optimum aesthetic improvement. Access will also guide site selection for convenience of the volunteers and to minimize permission requirements.	
		
Applicability x Residents Visitors x Public Service Employees Businesses Commercial/Industrial Construction	RATIONALE FOR SELECTION Stream cleanup projects are a great way to improve aquatic habitat, water quality, and aesthetics while promoting storm water awareness. This BMP is generally inexpensive and KKB coordinates the participation of volunteer groups and organizations. Some of these groups may have similar agendas and may already sponsor such cleanup projects. The city will continue to participate and advertise these events to the general public through the public education BMP's. Stream cleanup projects do not require a long-term commitment by the organizations, which make this BMP more appealing to citizens or groups. The Storm Water Stakeholders Group selected Stream Cleanup Projects as the highest priority BMP for Public Involvement and Participation.	
	YEAR	IMPLEMENTATION ACTIVITY
12/13/2013 TO 9/30/2014	<ul style="list-style-type: none"> Advertise program to organizations Note potential locations during dry weather screening Schedule and hold one cleanup event 	<ul style="list-style-type: none"> 1 summary flyer; Support 1 clean up event

STORM WATER MANAGEMENT PROGRAM

	MCM 1	
	WATERSHED ORGANIZATION	PE-8
	<p>BMP DESCRIPTION</p> <p>The City actively supports several watershed organizations and The Central Texas Sustainability Partnership. Membership of the organizations are comprised of private land owners, industry professionals, utility staff members, elected officials, regional agency representatives, and private companies.</p> <p>The goal of the various watershed groups is to educate the public in protecting water quality in the area by identifying issues and concerns in each watershed, communicating water resource issues to the public and enhancing public participation and outreach activities. Each organization has several initiatives that benefit the citizens of Killeen. These organizations have participated in household hazardous waste collection and recycling events in Killeen, distributed “fish” door hangers with tips for protecting surface water, and hosted booths at Fort Hood Earth Day events.</p>	
<p>Responsible Authority * Public Works Planning</p>	<p>RATIONALE FOR SELECTION</p> <p>The City currently sends a representative to monthly and quarterly meetings of several watershed organizations. The goals of the Committee are consistent with the public involvement and outreach goals of the City.</p>	
<p>Applicability</p> <ul style="list-style-type: none"> x Residents x Visitors x Public Service Employees x Businesses x Commercial/Industrial x Construction 		
YEAR	IMPLEMENTATION ACTIVITY	MEASURABLE GOAL

STORM WATER MANAGEMENT PROGRAM

	MCM 1	
	STORM DRAIN STENCILING	PE-9
Responsible Authority * Public Works	BMP DESCRIPTION This activity consists of volunteers affixing plastic buttons with a “no dumping” message to the storm drain inlets. This stenciling effort will focus on older areas of the city and those areas known to be more problematic. Students and involved community groups can stencil inlets through community involvement projects organized by Keep Killeen Beautiful (KKB). Killeen will utilize as many organizations as possible including Boy Scouts and Girl Scouts to mark the inlets. Establishing this BMP in this manner will provide many educational opportunities.	
Applicability x Residents x Visitors x Public Service Employees x Businesses x Commercial/Industrial x Construction	RATIONALE FOR SELECTION Storm drain marking has been used by many municipalities and is generally a very effective BMP that is relatively inexpensive and easy to implement. The effectiveness of this activity multiplies when various volunteer groups and organizations are utilized to stencil the inlets. The Storm Water Stakeholders Group selected this as the third highest priority BMP for Public Involvement and Participation	
		
YEAR	IMPLEMENTATION ACTIVITY	MEASURABLE GOAL
